McAlpine Taps

Elegance and sustainability.

Designed to combine style and functionality, these contemporary kitchen taps offer durable finishes and reliable performance. Their water efficient technology and robust construction make them an excellent choice for modern kitchens seeking both elegance and sustainability.

Fast Fit Nut

The easiest taps to install in the market. You will not believe how quickly you can now install basin taps with our patented Fast Fit Nut. Mounting the tap requires no tools.

Simply push the Fast Fit Nut up the thread, then twist it to tighten the last few threads by hand.

Chrome 3+

Introducing our McAlpine tap range made from Chrome 3+ (CR3+).

Most taps are plated in Chrome 6, which is an extremely hazardous substance for both humans and the environment.

Because of our 100+ year history of excellence and quality, we made a decision when we came into this market to plate all our chrome finish taps with Chrome 3+.

- **CR3+ is only 1% of the toxicity of C6.**
- **CR3+ is more energy efficient than C6**
